## ABOUT THIS PROJECT

Park Township -  
Holland, MI

The multiple Steel Hip Pavilion (SHP) shelters feature Terra Brown powdercoated frames, Patina Green metal roofs, and T&G roof decking.

The shelters were built in 2024 at the Holland Park Township pickleball courts located in Holland, MI. These structures provide shade and seating for guests while watching and enjoying pickleball.

# Steel Open Gable

*A quintessential gable steel shelter design*

Standard Features:

- Single-tier, double-tier, and split gable options
- 24-gauge metal roofing
- Factory applied powder coat finish on all steel components
- 4:12 roof pitch

*Standard Sizes*

<b>16 x 24</b>	<b>16 x 34</b>	<b>16 x 44</b>	<b>20 x 24</b>	<b>20 x 34</b>
<b>20 x 44</b>	<b>24 x 34</b>	<b>24 x 44</b>	<b>24 x 64</b>	<b>30 x 44</b>
<b>30 x 64</b>	<b>30 x 84</b>			

# Steel Hip

*A simple, yet timeless steel shelter design*

*Standard Sizes*

12 x 12	16 x 16	16 x 24	16 x 34	16 x 44
20 x 20	20 x 24	20 x 34	24 x 24	24 x 34
24 x 44	24 x 64	30 x 30	30 x 44	30 x 64
30 x 84	36 x 36			

Standard Features:

- Single-tier and double-tier options
- 24-gauge metal roofing
- Factory applied powder coat finish on all steel components
- 4:12 roof pitch

# Steel Barrel Vault

*A steel shelter with a curve*

Standard Features:

- Single-tier or double-tier options
- 24-gauge metal roofing
- Factory applied powder coat finish on all steel components

*Standard Sizes*

16 x 24	16 x 34	16 x 44	20 x 24	20 x 34

# Steel Hexagon

*A timeless steel shelter design*

Standard Sizes				
16	20	24	28	36
40	50			

Standard Features:

- Single-tier and double-tier options
- 24-gauge metal roofing
- Factory applied powder coat finish on all steel components
- 4:12 roof pitch

# Steel Octagon

*A statement steel shelter design*

Standard Features:

- Single-tier and double-tier option
- 24-gauge metal roofing
- Factory applied powder coat finish on all steel components
- 4:12 roof pitch

*Standard Sizes*

16	20	24	28	36
40	50			

# Steel Mini Gable

*A smaller take on a classic steel shelter design*

Standard Features:

- 24 gauge metal roofing
- Factory applied powder coat finish on all steel components
- Benches, tables, or message center available
- 4:12 roof pitch

Standard Sizes				
8 x 8	10 x 10			

# Steel Cantilever

*A modern steel shelter design*

Standard Features:

- 24-gauge metal roofing
- Factory applied powder coat finish on all steel components
- 3:12 roof pitch

*Standard Sizes*

<b>8 x 24</b>	<b>8 x 28</b>	<b>8 x 32</b>		

# Steel Pergola

*A filtered sunlight steel shelter design*

## *Standard Sizes*

Scenic Shelters offers a variety of steel pergola styles. Certified welders and craftsmen create a tubular steel frame utilizing clear-span design. Pergolas are shipped ready to assemble with no cutting or welding required. A factory applied powder coat finish is standard on all steel components.

## Standard Features:

- Factory applied powder coat finish on all steel components
- A variety of styles and options available in column, supporting beam, and member designs
- Scenic Shelters' design team can design a pergola specific to a project's needs

# Steel Monoslope

*A steel shelter that's striking at every angle*

Standard Features:

- 24-gauge metal roofing
- Factory applied powder coat finish on all steel components
- 3:12 roof pitch

*Standard Sizes*

<b>8 x 24</b>	<b>8 x 28</b>	<b>8 x 32</b>		

# Steel Sports Shelter

*Protection with a contemporary steel shelter design*

Standard Sizes				
8 x 24	8 x 28	8 x 32		

Standard Features:

- 24-gauge metal roofing
- Factory applied powder coat finish on all steel components
- 3:12 roof pitch
- Custom sizes are available
- Benches are optional

# Wood Shelters

# ON THE

# MAP

## ABOUT THIS PROJECT

Veteran's Memorial Park -  
Rolla, MO

This massive Wood Open Gable (WOG) shelter features 16 columns which support a large 29 gauge metal roof.

The shelter was built in 2022 at the Veteran's Memorial Park in Rolla, MO. The structure provides an abundant amount of coverage for multiple picnic tables and seats.

# Wood Gothic Arch

*A wood shelter design reminiscent of years past*

Standard Features:

- Glulam SYP arches and rafters/columns
- #1 grade kiln dried 2" x 6" SYP roof decking
- 2" x 8" Cedar fascia
- 30-year architectural grade shingles
- Powder coated metal base shoes
- 4:12 roof pitch

*Standard Sizes*

<i>Standard Sizes</i>

# Band Shells

# ON THE

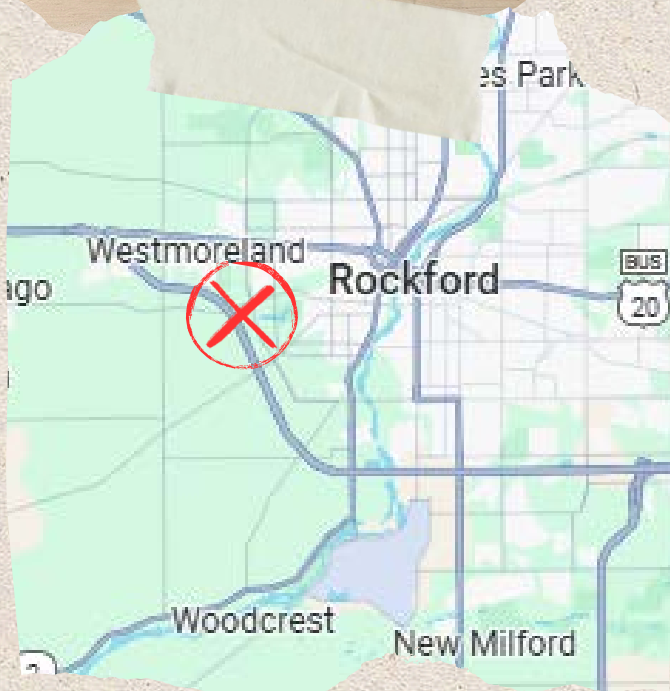

# MAP

## ABOUT THIS PROJECT

Levings Lake -  
Rockford, IL

This incredible Band Shell showcases a beautiful wood roof canopy and multiple light fixtures. Two dressing room areas rest on either side of the architectural, perforated wall.

The shelter was built in 2023 at Levings Lake in Rockford, IL. Whether hosting live music, theater productions, or public speaking events, the Band Shell serves as a focal point for cultural expression and connection.

# Band Shell

*An impressive and functional wood structure design*

Scenic Shelters offers a variety of sleek band shell styles. With their graceful curves and substantial presence, these structures offer an impressive space for communities to come together. Scenic Shelters can create the perfect band shell for a project's aesthetic and functional needs.

# Band Shell

## Pre-Engineered Designs

- Each band shell is pre-engineered to meet or exceed local building requirements
- Stamped and sealed drawings and calculations completed by a structural engineer to meet a project's state and local building codes

## Roofing

- #1 grade kiln dried 2" x 6" SYP roof decking
- 2" x 8" Cedar fascia
- 30-year architectural grade shingle package

## Structure Frame

- Glulam Southern Yellow Pine (SYP)
- Each shelter is designed to meet the local snow and wind loads
- All metal connectors have a factory applied powder coat finish in Railing Black

## Columns

- Gothic arch style glue-laminated SYP columns are either direct embedded in concrete footings or attached at the surface utilizing metal base shoes

A photograph of a modern wooden building with a grey door and a white script overlay reading "Scenic Buildings". The building features horizontal wood siding and a dark roof. The text is centered over a semi-transparent grey rectangular area.

## ABOUT THIS PROJECT

Lincoln Park  
Community Lake -  
Lincoln Park, NJ

This amazing Building Activity Center (BAC) features a large shaded area connected to an enclosed storage building and office space.

The multiuse building was built in 2025 at Lincoln Park in Lincoln Park, NJ. The structure provides a spacious storage room for equipment as well as the perfect covered spot for gathering around multiple picnic tables.

# Scenic Buildings

Scenic Shelters creates both standard and custom Cedar wood building activity centers. We can help you design a building that will meet your needs while offering an option that fits in your natural surroundings. Optional electrical and plumbing packages are available as well as MEP design plans for an additional charge.

## Standard Features

### Pre-Engineered Designs

- Each structure is pre-engineered to meet or exceed local building requirements
- Stamped and sealed drawings with calculations completed by a structural engineer to meet state and local building codes
- Restroom facilities meet ADA compliance requirements

## Cedar Timbers

- Milled from Northern White Cedar for natural beauty, durability, and structural integrity
- Nominal solid 4" x 8" double tongue and groove timbers
- Disassembled and delivered to the construction site
- Cedar is highly desirable for its resistance to moisture, warpage, insects, and fungus that can shorten the service life of other wood buildings
- Cedar's cellular structure also offers a natural thermal efficiency

### Exterior Wall Construction

- Predrilled starter holes for 10" coated screws speed construction of solid timbers
- Timbers are precut to length assuring staggered end joints and end matched for alignment, preassembled, and construction coded to ensure an easy field fit
- Disassembled and delivered to the construction site for reassembly
- Standard corners augment construction strength, reliability, and weather seal with a 6" timber screw
- Treated bottom plate with a sill seal and energy seal for all courses
- Trim package included for base, corners, and roofline

### Roofing/Roofline

- #1 grade kiln dried 2" x 6" SYP roof decking
- 2" x 8" cedar fascia
- 30-year architectural asphalt shingle package
- Low pitch laminated SYP beams with Port Orford Cedar columns and 24" overhang

### Doors & Windows

- Items are shipped to the job site ready for installation
- Primed steel doors with 3-part frame
- Standard hardware includes handles, locks, hinges, closer, and sweep

### Interior Walls

- Interior walls use standard 2" x 4" construction
- Fiberglass Reinforced Panel (FRP) in the restroom areas for easy cleaning
- Multipurpose areas are finished onsite with provided 1" x 8" T&G prime or cedar
- Trim package included for base, corners, ceiling, doors, windows, and vents

# Scenic Bridges

Scenic Shelters' bridges are designed to combine both beauty and function. Our bridges can be used in a variety of settings for pedestrian and light vehicular traffic. The pre-engineered bridges can span 16' – 80' in length and are available in 4', 6', or 8' widths. Bridges feature glulam SYP wood components, 2" x 6" SYP decking, and hot dipped galvanized steel hardware. Built with the finest materials, Scenic Shelters' bridges are sure to be an eye-catching feature to your outdoor setting.

## Options:

- 5-Rail or 4-rail plus curb railing option
- Various deck widths
- Assorted bridge spans
- Choice of flat or cambered bridge style
- Custom features and sizes available upon request

# Scenic Furnishings

## Tables

- Choose from surface mount or freestanding
- Variety of frame and Thermoplastic colors
- Choice of Diamond (D) or Perforated (P) pattern
- Rectangular tables available in 4', 6' or 8' lengths, extended lengths and ADA accessible
- Round or square tables available in 46" length

Many products, options, sizes, and colors are available. Contact Scenic Shelters for all your furnishing needs.

# Scenic Stone

- Enhance your building or shelter by adding Scenic Shelters' cost effective faux stone wainscoting kits and/or column wraps
- Commercial grade faux stone includes a dual layer composite system made with an impact resistant plastic layer and solid urethane layer for maximum protection
- Wainscoting panels have a built-in top ledge making them ready for simple installation
- Column wrap kits come with 4 side pieces and a 2-piece limestone cap. Standard size measures 27" x 27" with a 28" x 28" limestone cap.
- A large variety of stone colors and patterns are available

# Scenic Solar

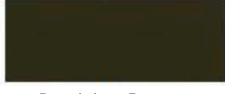

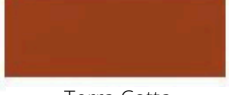

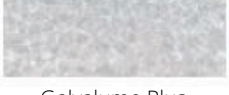

Photos Courtesy of FlightDeck Brewing

- Solar kits include: solar panel(s), battery backup, inverter, and wiring harness
- Powering Options: lights, fans, outlets, cell phone charger, and motion detectors
- Lockable security case to securely hold the battery and inverter is included
- Kits can be custom designed to fulfill your project's needs
- Perfect for remote locations that are off-grid
